

## Shure SM7

## Dynamic, cardioid.

### Features

Flat, wide-range frequency response for clean and natural reproduction of both music and speech

Switchable bass roll-off and mid-range emphasis (presence boost) settings

Shielded against broadband interference from computer monitors and other electrical devices—excellent rejection of electromagnetic hum

Internal “air suspension” shock isolation virtually eliminates mechanical noise transmission

A7WS windscreen included for close-up vocals or narration

Swiveling bracket with integrated stand adapter for easy mounting and precise microphone positioning

Cardioid polar pattern, uniform with frequency and symmetrical about axis, to provide maximum rejection and minimum coloration of off-axis sound

Rugged construction and excellent cartridge protection for outstanding reliability

### Applications:

Warm full vocals, often used by radio announcers. Instruments.
